

WHAT IS CLAIMED IS:

1. A composition comprising at least about 0.25% of total fermentable fiber, by weight of the composition, wherein the composition is a liquid which is adapted for use by a companion animal.
2. The composition according to Claim 1 comprising at least about 0.5% of total fermentable fiber, by weight of the composition.
3. The composition according to Claim 2 which is a drinking water.
4. The composition according to Claim 3 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob bean gum, citrus pulp, pectin, fructooligosaccharide, mannanoligosaccharide, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.
5. The composition according to Claim 4 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, fructooligosaccharide, and mixtures thereof.
6. The composition according to Claim 1 which is a gravy.
7. The composition according to Claim 6 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob bean gum, citrus pulp, pectin, fructooligosaccharide, mannanoligosaccharide, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.
8. The composition according to Claim 7 comprising at least about 0.5% of total fermentable fiber, by weight of the composition.
9. The composition according to Claim 8 further comprising one or more nutrients.
10. The composition according to Claim 9 further comprising meat protein.

11. The composition according to Claim 10 comprising at least about 0.5% protein and at least about 1% fat, by weight of the composition.
12. The composition according to Claim 11 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, fructooligosaccharide, and mixtures thereof.
13. The composition according to Claim 12 wherein the total fermentable fiber comprises beet pulp and fructooligosaccharide.
14. A composition comprising a fermentable fiber selected from the group consisting of beet pulp, short chain oligofructose comprising 1-kestose, nystose, and 1F-beta-fructofuranosylnystose, and mixtures thereof, wherein the composition is a liquid which is adapted for use by a companion animal.
15. The composition according to Claim 14 comprising at least about 0.05% of total fermentable fiber, by weight of the composition.
16. The composition according to Claim 15 which is a drinking water.
17. The composition according to Claim 16 comprising from about 0.1% to about 20% of total fermentable fiber, by weight of the composition.
18. The composition according to Claim 15 which is a gravy.
19. The composition according to Claim 18 comprising from about 0.1% to about 20% of total fermentable fiber, by weight of the composition.
20. The composition according to Claim 19 further comprising a further fermentable fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob bean gum, citrus pulp, pectin, fructooligosaccharide additional to the short chain oligofructose, mannanoligosaccharose, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.
21. The composition according to Claim 19 further comprising one or more nutrients.

22. The composition according to Claim 21 further comprising meat protein.
23. The composition according to Claim 22 comprising at least about 0.5% protein and at least about 1% fat, by weight of the composition.
24. A kit comprising:
 - (a) the composition according to Claim 1; and
 - (b) information selected from the group consisting of:
 - (i) that the composition is adapted for use by a companion animal;
 - (ii) that the composition is useful for enhancing gastrointestinal health;
 - (iii) that the composition is useful for improving the fecal odor of the feces of a companion animal; and
 - (iv) combinations thereof.
25. The kit according to Claim 24 wherein the composition comprises at least about 0.5% of total fermentable fiber, by weight of the composition.
26. The kit according to Claim 25 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob bean gum, citrus pulp, pectin, fructooligosaccharide, mannanoligosaccharide, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.
27. The kit according to Claim 26 wherein the composition comprises from about 1% to about 20% of total fermentable fiber, by weight of the composition.
28. The kit according to Claim 27 wherein the composition is a drinking water.
29. The kit according to Claim 27 wherein the composition is a gravy.
30. The kit according to Claim 29 wherein the composition comprises from about 2% to about 10% of total fermentable fiber, by weight of the composition.
31. A kit comprising:

- (a) the composition according to Claim 14; and
- (b) information selected from the group consisting of:
 - (i) that the composition is adapted for use by a companion animal;
 - (ii) that the composition is useful for enhancing gastrointestinal health;
 - (iii) that the composition is useful for improving the fecal odor of the feces of a companion animal; and
 - (iv) combinations thereof.

32. The kit according to Claim 31 wherein the composition comprises at least about 0.05% of total fermentable fiber, by weight of the composition.

33. The kit according to Claim 32 wherein the composition further comprises a further fermentable fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob bean gum, citrus pulp, pectin, fructooligosaccharide additional to the short chain oligofructose, mannanoligosaccharide, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.

34. The kit according to Claim 32 wherein the composition comprises from about 0.1% to about 20% of total fermentable fiber, by weight of the composition.

35. The kit according to Claim 34 wherein the composition is a drinking water.

36. The kit according to Claim 34 wherein the composition is a gravy.

37. A method selected from the group consisting of enhancing gastrointestinal health of a companion animal, improving the fecal odor of the feces of a companion animal, reducing risk of cancer in a companion animal, and combinations thereof, comprising orally administering to the companion animal the composition according to Claim 1.

38. The method according to Claim 37 wherein the method comprises at least about 0.5% of total fermentable fiber, by weight of the composition.

40. The method according to Claim 38 wherein the total fermentable fiber comprises a fiber selected from the group consisting of beet pulp, gum arabic, gum talha, psyllium, rice bran, carob

bean gum, citrus pulp, pectin, fructooligosaccharide, mannanoligosaccharose, soy fiber, arabinogalactan, galactooligosaccharide, arabinoxylan, and mixtures thereof.

41. The method according to Claim 40 wherein the composition is a drinking water.
42. The method according to Claim 40 wherein the composition is a gravy.
43. The method according to Claim 42 wherein the oral administration is at least once daily.
44. The method according to Claim 42 wherein the composition is contacted with companion animal food prior to oral administration.
45. The method according to Claim 42 wherein the composition is admixed with companion animal food prior to oral administration.
46. A method selected from the group consisting of enhancing gastrointestinal health of a companion animal, improving the fecal odor of the feces of a companion animal, reducing risk of cancer in a companion animal, and combinations thereof, comprising orally administering to the companion animal the composition according to Claim 14.
47. The method according to Claim 46 wherein the composition comprises at least about 0.05% of total fermentable fiber, by weight of the composition.
48. The method according to Claim 47 wherein the composition is a drinking water.
49. The method according to Claim 47 wherein the composition is a gravy.
50. The method according to Claim 49 wherein the oral administration is at least once daily.
51. The method according to Claim 50 wherein the oral administration is concurrent with feeding the companion animal.
52. The method according to Claim 49 wherein the composition is contacted with companion animal food prior to oral administration.

53. The method according to Claim 49 wherein the composition is admixed with companion animal food prior to oral administration.
